2 Swish-e

- Article
- Linux Mag
- installation

```
# apt-get install swish-e catdoc

doc

•

• /var/www/narvali.conf

IndexDir /var/www/narvali
IndexFile /var/www/narvali.index

FileFilter .doc      /usr/bin/catdoc "-s8859-1 -d8859-1 %p"
FileFilter .pdf      pdftotext "%p -"

IndexContents  TXT  .html .pdf .doc
IndexOnly        .html .pdf .doc

# reduce multiple inflections of the same word (Eats, Eating... -> Eat)
FuzzyIndexingMode Stemming_fr
```

- Construction de l'index

```
// construction de l'index
$ swish-e -c /var/www/narvali.conf
```

- Recherche (cette configuration fonctionne sur les accents) :

```
$ swish-e -f /var/www/narvali.index -w 'repertoire'
# Number of hits: 7

$ swish-e -f /var/www/narvali.index -w 'répertoire'
# Number of hits: 27
```

- *API*

```
#!/usr/bin/perl -w
#search4.pl
use SWISH::API;
my ($max, $cnt) = (10,0);
my $index = "/var/www/narvali.index";
my $query = join(" ", @ARGV);
my $handle = SWISH::API->new($index);
my $results = $handle->Query($query);
while ( ($cnt++ < $max) &&
(my $res = $results->NextResult)) {
printf "%d '%s' %d\n",
$res->Property("swishrank"),
$res->Property("swishdocpath"),
$res->Property("swishdocszie");
}
```
